INTRODUCTION

Our Company Masha`a Trading & Contracting has introduced a great and comprehensive development programs aiming at raising the standard of living of our society. Providing every individual with the best quality of life is MTC's ultimate aim. Our company has given great attention to General Construction and Road Works due to its importance in the process of developing Oman. Both private and public sectors are participating in this process, especially in the area of Infrastructure Development, General and commercial Construction Road Works etc.

Now, the majority of international companies believe in giving more attention to big scale programs and projects. We at MTC, use the latest technology and research in all areas of General construction, Infrastructure and road works to provide our clients with best quality product. We believe that our company is quite capable of taking in both small and great scale projects should be treated equally, our clients include government departments, private companies, and individuals. Client`s satisfaction and trust in our product quality is our first concern. Our record of achievements confirms this belief.

Our Company

Since establishment in 2013, Masha`a Trading & Contracting was formerly known as Al Dar LLC, we worked very hard to participate in promoting Oman development programs in its area of specialization; In Building Construction, Roads & Infrastructure works, MEP works, Electrical Installation & Ducting works and other works like Carpentry, Sewage, water networks and Telecom works & stations. While maintaining our loyalty to our mother land business markets, we also participate in the wider global market. Part of our capital investment is shared by globally recognized Masha`a Trading & Contracting.

At MTC, We have the best qualified team for Residential & Commercial construction and for Road works also. This highly qualified and experienced team includes Engineers, Accountants, Technicians, and craftsmen specialized in all kinds of company business. The team was supervised by Highly Experienced professionals. Working under experienced and well informed supervision in collaboration with experienced companies using the latest methods of research & technologies; MTC benefited greatly from such ventures. We are very well established company that made its name and reputation in the market through our clients trust and belief in our quality team work strategy, flexibility, respecting clients feedback, and great attention to every detail throughout the process up to the point of final product delivery.

Our Standard

- ✓ To make sure that all projects are well researched with continuous post-product delivery follow-up provided by special teams.
- ✓ To introduce new technologies and the latest techniques capable of dealing with all kinds of creative design demands by our clients.
- ✓ To insure consistency and reliability; To gain and maintain long-term company-client relationship based on mutual trust and respect.
- ✓ To provide clients with high quality services and products in accordance with the best international quality standards in all kinds of Construction, Infrastructure and MEP work.
- ✓ To work responsibly towards keeping a clean environment; To maintain our place as active participants in the development of our local communities.

Our Strategies

- ✓ To provide variety and flexibility in serving our clients with best quality products.
- ✓ To execute, efficiently and promptly, all kinds of projects whenever approached by all kinds of clients.
- ✓ To keep to clients required deadlines and pay attention to every detail throughout the process.
- ✓ To save time, keep the cost down, and provide the highest quality end-product.

Our Resources

We at MTC, owns the best material/mechanical resources that allow us to provide clients with post-project follow up to insure reliability and consistency. Our resources:

- ✓ Includes Heavy machinery, light machinery, technical equipment, computer-assisted design programs, and all kinds of technical resources needed to provide our clients with the best results by the end of each project.
- ✓ Are available both on-site & off-site and always ready to execute the smallest or the biggest scale projects.
- ✓ Also, have the latest and most sophisticated technical hardware and software computer-assisted programs that help us to design and execute our projects with precision and efficiency.

The existing complementary shared investment between our company and foreign investors keeps our financial resources continuously stable and insures high quality services and products. Our financial stability, consistency and reliability in providing high quality services gained us clients who feel confident when dealing with us. We are committed to deliver our projects completely and efficiently ready according to contracted delivery dates. We keep to our promises, always!!!

Our efficient, qualified, and experienced human resource team added to our most advanced material machinery makes us the best company qualified to satisfy small business or big business clients, public or private; nationally, regionally, and internationally. MTC appreciates clients feedback as it helps our research team develop and maintain our unique services.
